CONCEPT / LOCAL PROTOTYPE

Cognixoft Care

Coordinate shared goals, responsibilities and follow-up across a care team.

Who it is for

Care coordinators and multidisciplinary teams

What the preview lets you explore

- Create a goal and task
- Assign responsibilities and record completion
- Download a handover summary

How it differs

Owns the shared goal, task owner and handover. Companion organizes the individual's daily plan.

Workflow support. No diagnosis, treatment selection or live team sharing. Fictional examples. Not validated for clinical use.

Next development step: Explore one handover workflow with care coordinators and professionals.
