A connected planning demonstration

01 / Care

An agreed task

Prepare one task.
Assign a responsible role.

02 / Companion

A personal plan

Copy it to a personal plan.
Add a question.

03 / Everyday

One routine step

Create one routine step.
Record its completion.

Copies retain their source trail. Completion remains separate in each product.

Implementation services

Product setup

Agreed configuration, task-based checks and an administration handover.

Integrations

An agreed data flow and field mapping, with connection and failure checks.

Data migration

A migration plan and rehearsal, with reconciliation and an agreed cutover and rollback.

Training & handover

Role-based walkthroughs and task guidance, with an outstanding-question record.

Scope and next steps

A clear project brief

Agree the intended task, named contacts, inputs, dependencies and acceptance checks. Review a written quotation before delivery.

Prices, dates, capacity, support and third-party costs remain subject to written agreement.
